The Holistic Care and Development of Children from Birth to Three

An Essential Guide for Students and Practitioners

Kathy Brodie, Early Years Consultant, UK

The Holistic Care and Development of Children from Birth to Three provides students and practitioners with the knowledge and understanding they need to meet the complex needs of babies and toddlers. With a focus on the fundamentally holistic nature of young children's development, and emphasising the role of play and emotional and physical environment throughout, the book shows its reader how to maximise each and every opportunity for learning when caring for the under threes. The text addresses both theory and practice, foregrounding the vital link between the two as the reader learns how to integrate theoretical approaches into their own setting and ways of working.
